

OPERATING YOUR INTERCOM SYSTEM

Each unit has a touch screen intercom system that can communicate with the exterior main entrance. This system has voice, video and unlocking capabilities. Below is a set of instructions on how the system operates.

1. Guest will search for your unit by touching the screen, enter your unit number and tap the  button.
2. Your unit station will receive an incoming call. Tap the  button to answer the call. You will see a video of the caller at the entrance.
3. To give access to your guest, tap the  button.
4. Once you see the guest has entered, tap the button  to end the conversation.
