

100 SOUTH CAMPUS DRIVE RESIDENT GUIDE – INTERCOM OPERATION

APARTMENT UNIT INTERCOM

Each apartment unit has a touch screen intercom system that can communicate with the building's main entrance. This system has voice, video, and unlocking capabilities. Below is a set of instructions on how the system operates.

1. Guests will search for your unit by touching the screen, enter your unit number and tap the  button.
2. Your unit station will receive an incoming call. Tap the  button to answer the call. You will see a video of the caller at the entrance.
3. To give access to your guest, tap the  button.
4. Once you see the guest has entered, tap the  button to end the conversation.

TOWNHOUSE UNIT INTERCOM

Each townhouse unit has a video door station at the entrance and a touch screen master station inside the unit. This system has voice and video capabilities. Below is a set of instructions on how the system operates.

1. Guests will tap the single  button at the townhouse's entrance door station.
2. Your unit station will receive an incoming call. Tap the  button to answer the call. You will see a video of the caller at the entrance.
3. To give access to your guests, manually open the door.
4. Once your guest has entered, tap the  button to end the conversation.
