Campus Services
HARVARD UNIVERSITY HOUSING

Dear Resident – Welcome to Harvard University Housing! We are delighted you chose to live with us and will do all that we can to **Make Harvard Home** for you.

Our Leasing, Property Management, and Graduate Commons teams will support you in different ways during your residency. Please reach out to them with any questions you may have.

Leasing

This group manages everything to do with your lease or housing contract. You will work with them when it is time to extend or terminate your lease or housing contract, if you want to sublet your unit, add or remove a roommate or authorized occupant, or transfer to another unit. Contact them at leasing@harvard.edu.

Property Management

The property management teams are responsible for the upkeep and management of all Harvard University Housing properties. If you have a work order request, are locked out of your unit, have a maintenance emergency, or any questions about the property, contact your property management team and they will be happy to respond.

Graduate Commons

The Graduate Commons team creates a lively and engaged living-learning community that shapes strong social and intellectual connections between neighbors. Programming is currently hosted online and is open to all residents of Harvard University Housing, including graduate students, post-docs, staff, faculty, and spouses/partners. The offerings include academic and intellectual events, affinity group meetings, as well as social and family programming. Online programming will continue until the University receives guidance that it is safe to meet in person.

Learn more about Graduate Commons programming at graduatecommons.huhousing.harvard.edu.

General Information

Please visit www.huhousing.harvard.edu and click the “Residents” tab for more information about living in Harvard University Housing. The “Welcome” section provides detailed information about your specific property to help you get settled in.

Again, thank you for choosing us. We look forward to getting to know you.

Sincerely,

Harvard University Housing
